

## **Autism awareness**

This excellent half day course has been designed for support staff, teacher working with students with SEND, or who would like to move into this field. Specifically designed to give an understanding of Autism and strategies to aid learning.

During the session delegates will develop their basic understanding and knowledge of Autism, including the various barriers and difficulties students may face. They will leave with strategies and techniques to aid learning.

By the end of the session, delegates will have:

- An understanding of Autism
- An awareness of communication and sensory difficulties
- Understand the barriers to learning
- Be aware of strategies and techniques to aid learning
