

## **Dealing with Autism during unstructured times**

This essential half-day course has been designed for support staff or anyone working with students with Autism, or who would like to move into this field. Specifically lunchtime supervisors, facilities staff, volunteers, teachers and support staff.

During the day delegates will develop their understanding and knowledge of Autism Spectrum Condition (ASC). They will leave with reassuringly uncomplicated strategies to enable your students to enjoy the whole school experience.

By the end of the session, delegates will have:

- Awareness of the condition
- Awareness of sensory issues
- Understanding of possible triggers and behaviours
- Strategies to prevent behavioural outbursts
